

COVID-19

IMPACT ON FOOD PURCHASING, EATING BEHAVIORS, AND PERCEPTIONS OF FOOD SAFETY

COVID-19 IFIC Consumer Research

BACKGROUND

Survey Methodology

One thousand interviews were conducted among adults ages 18+ from April 6 to April 7, 2020 and were weighted to ensure proportional results.

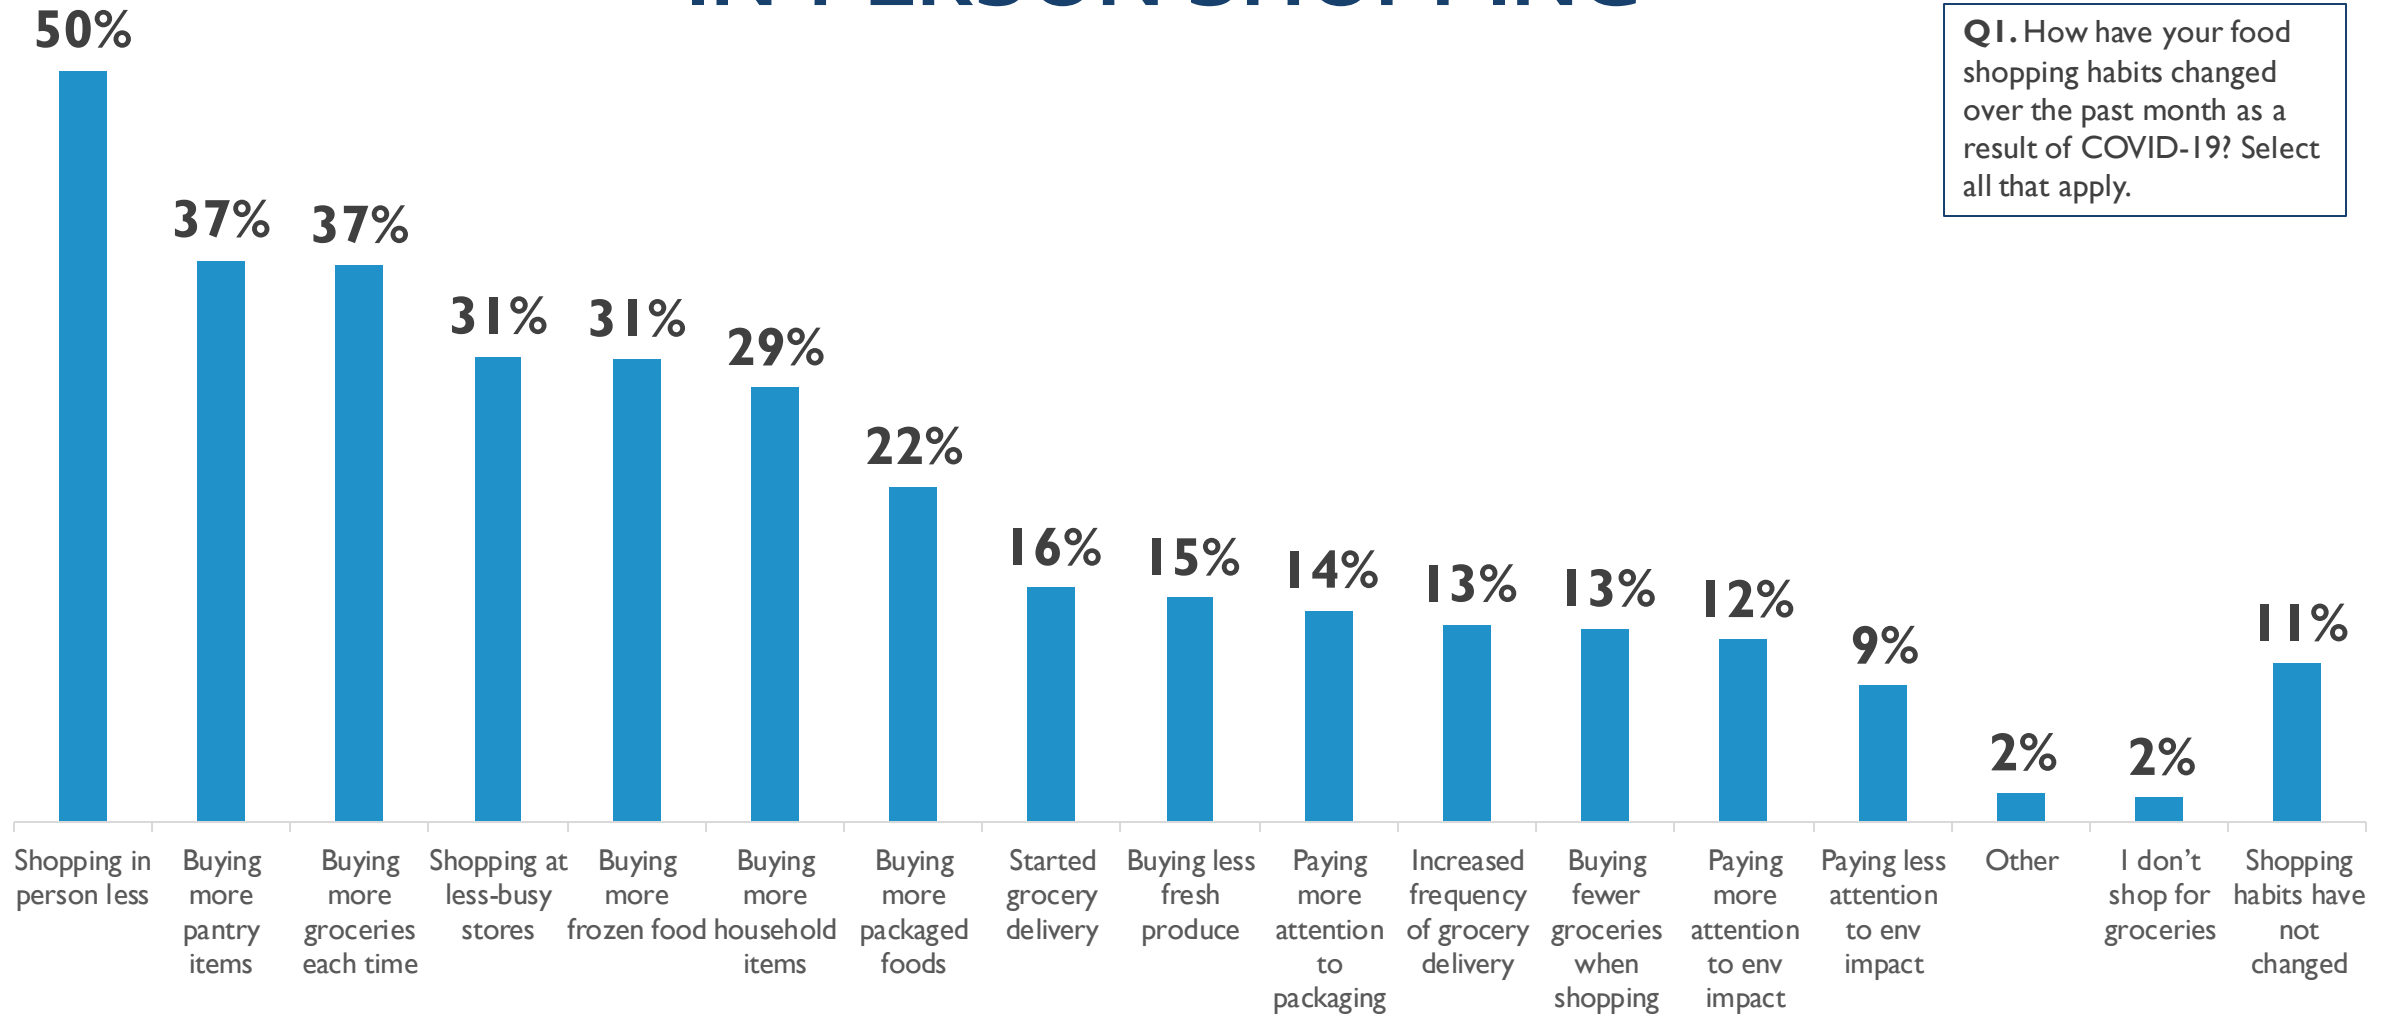

The Bayesian confidence level for 1,000 interviews is 3.5, which is roughly equivalent to a margin of error ± 3.1 at the 95% confidence level.

Statistical Significance

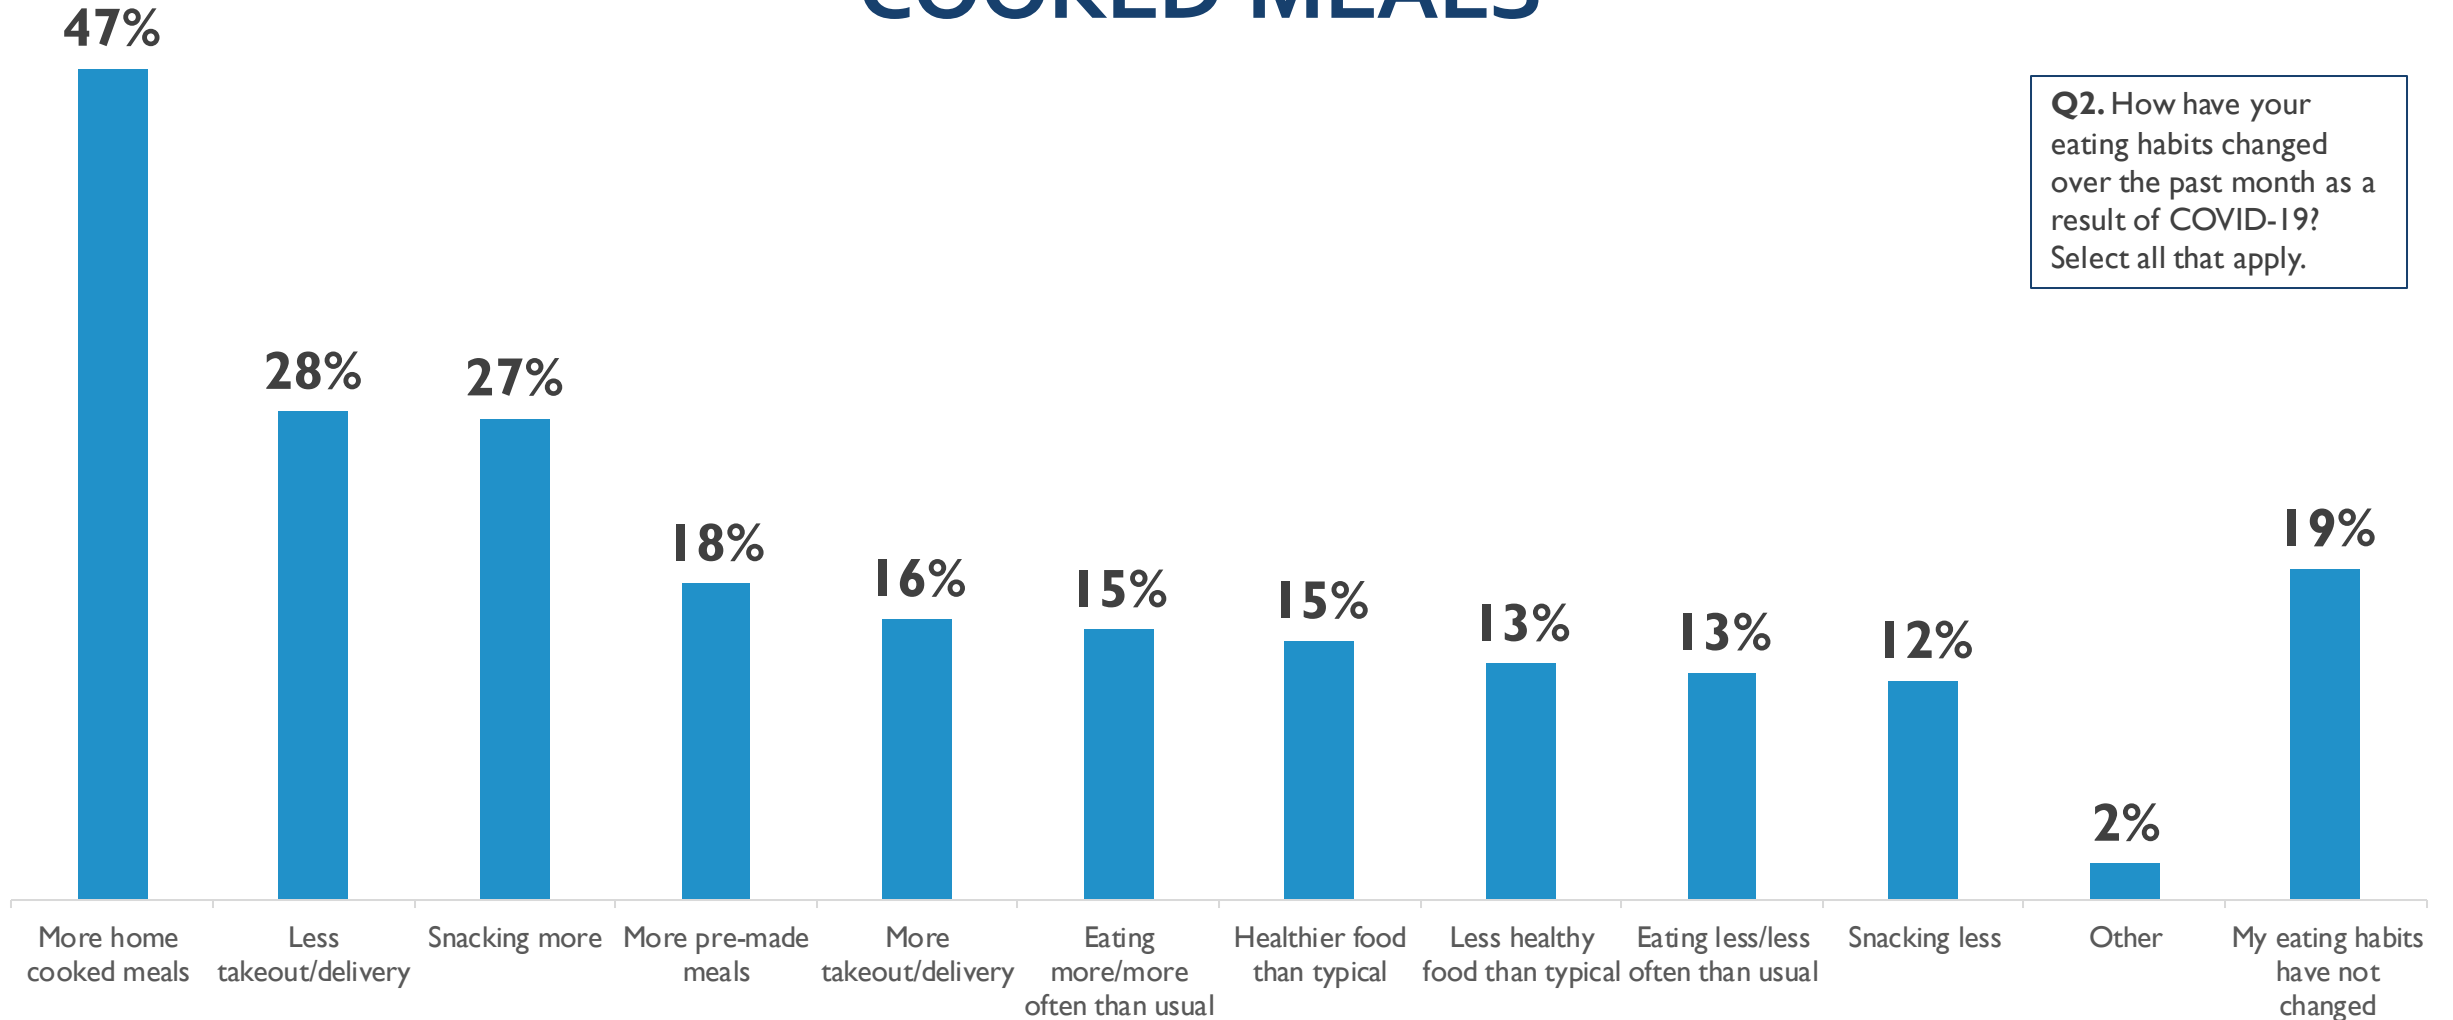

Something is statistically significant if the result cannot be attributed to random chance. Statistical significance in this presentation should be compared within each demographic (e.g. age, race, gender, etc.).

For example, if the responses from female respondents are considered to be significant, it is in relation to male respondents and not necessarily other demographic groups.

HALF OF CONSUMERS ARE DOING LESS IN-PERSON SHOPPING

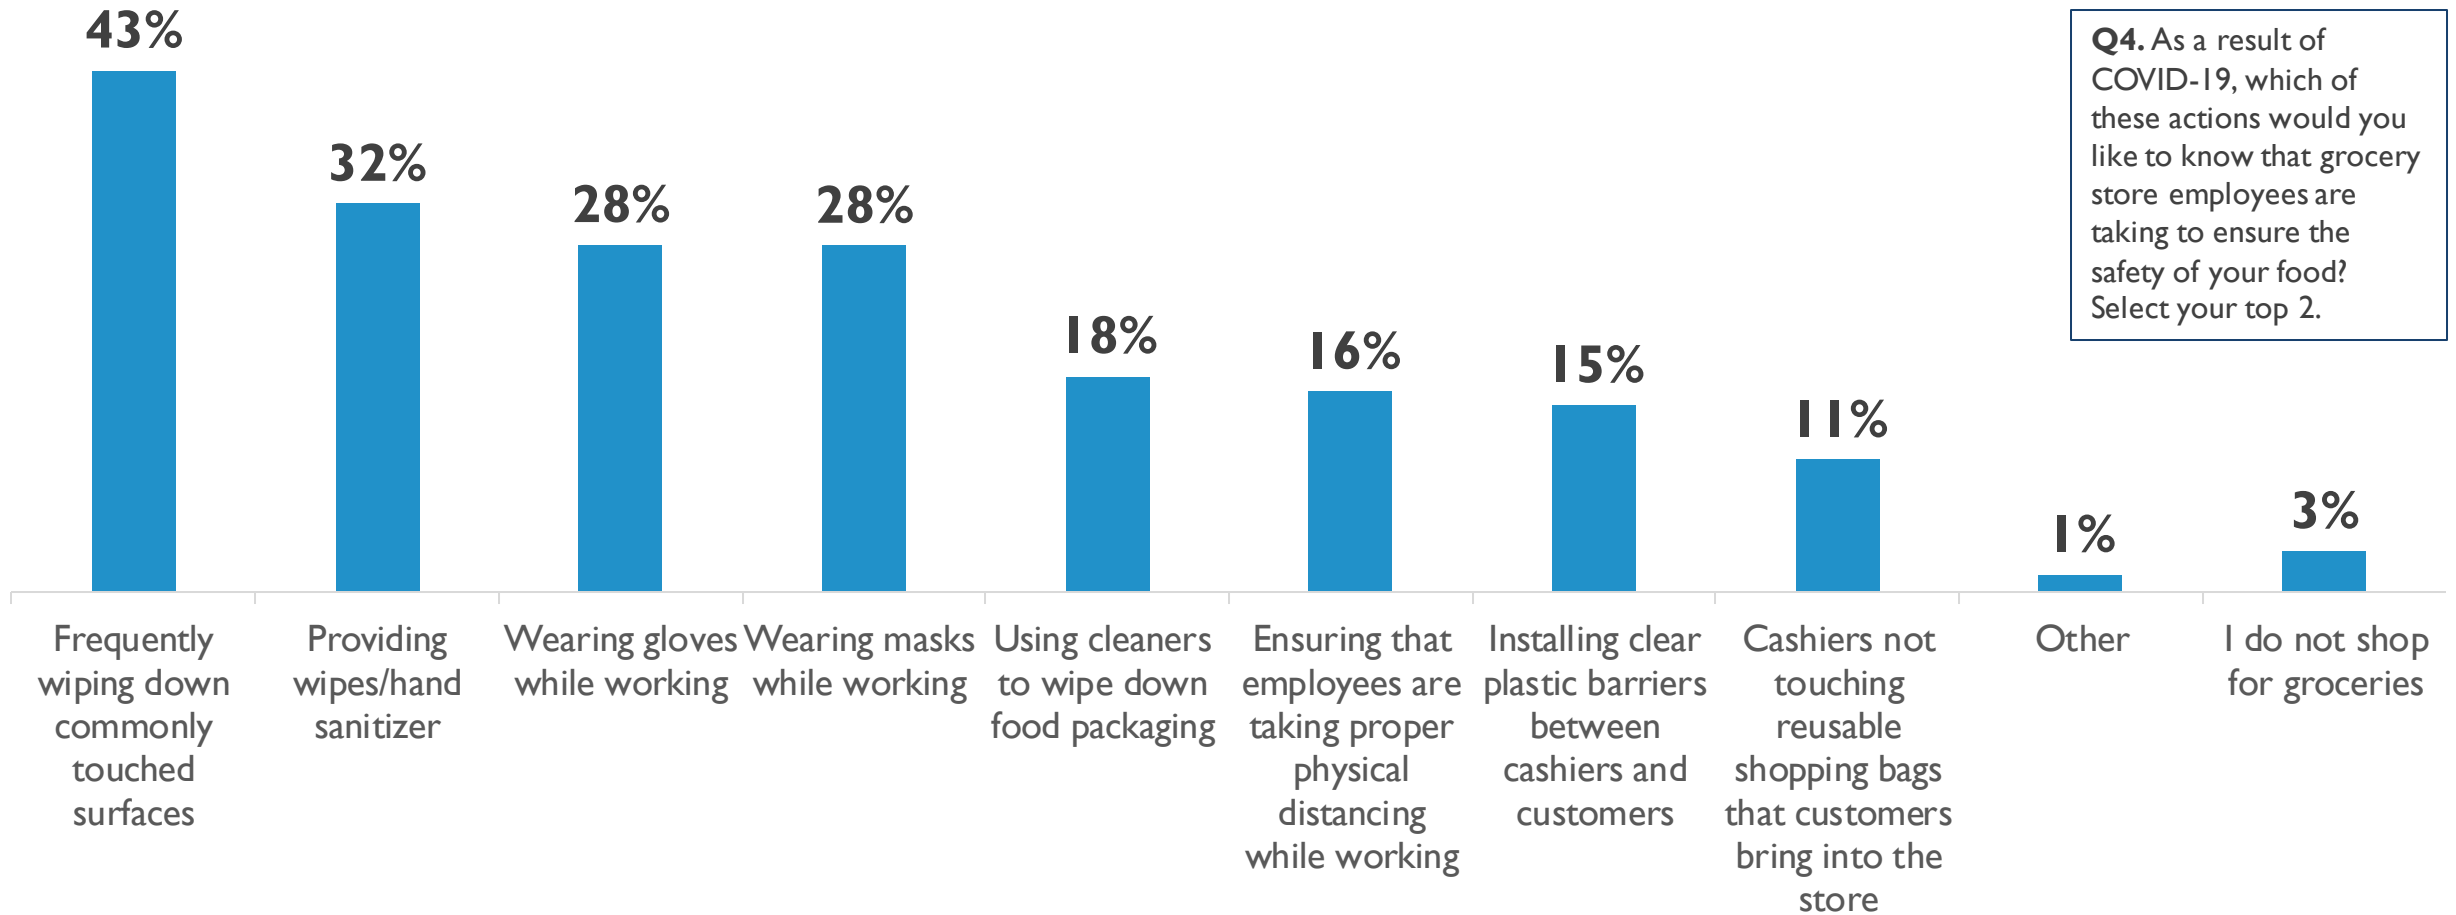

NEARLY HALF ARE EATING MORE HOME-COOKED MEALS

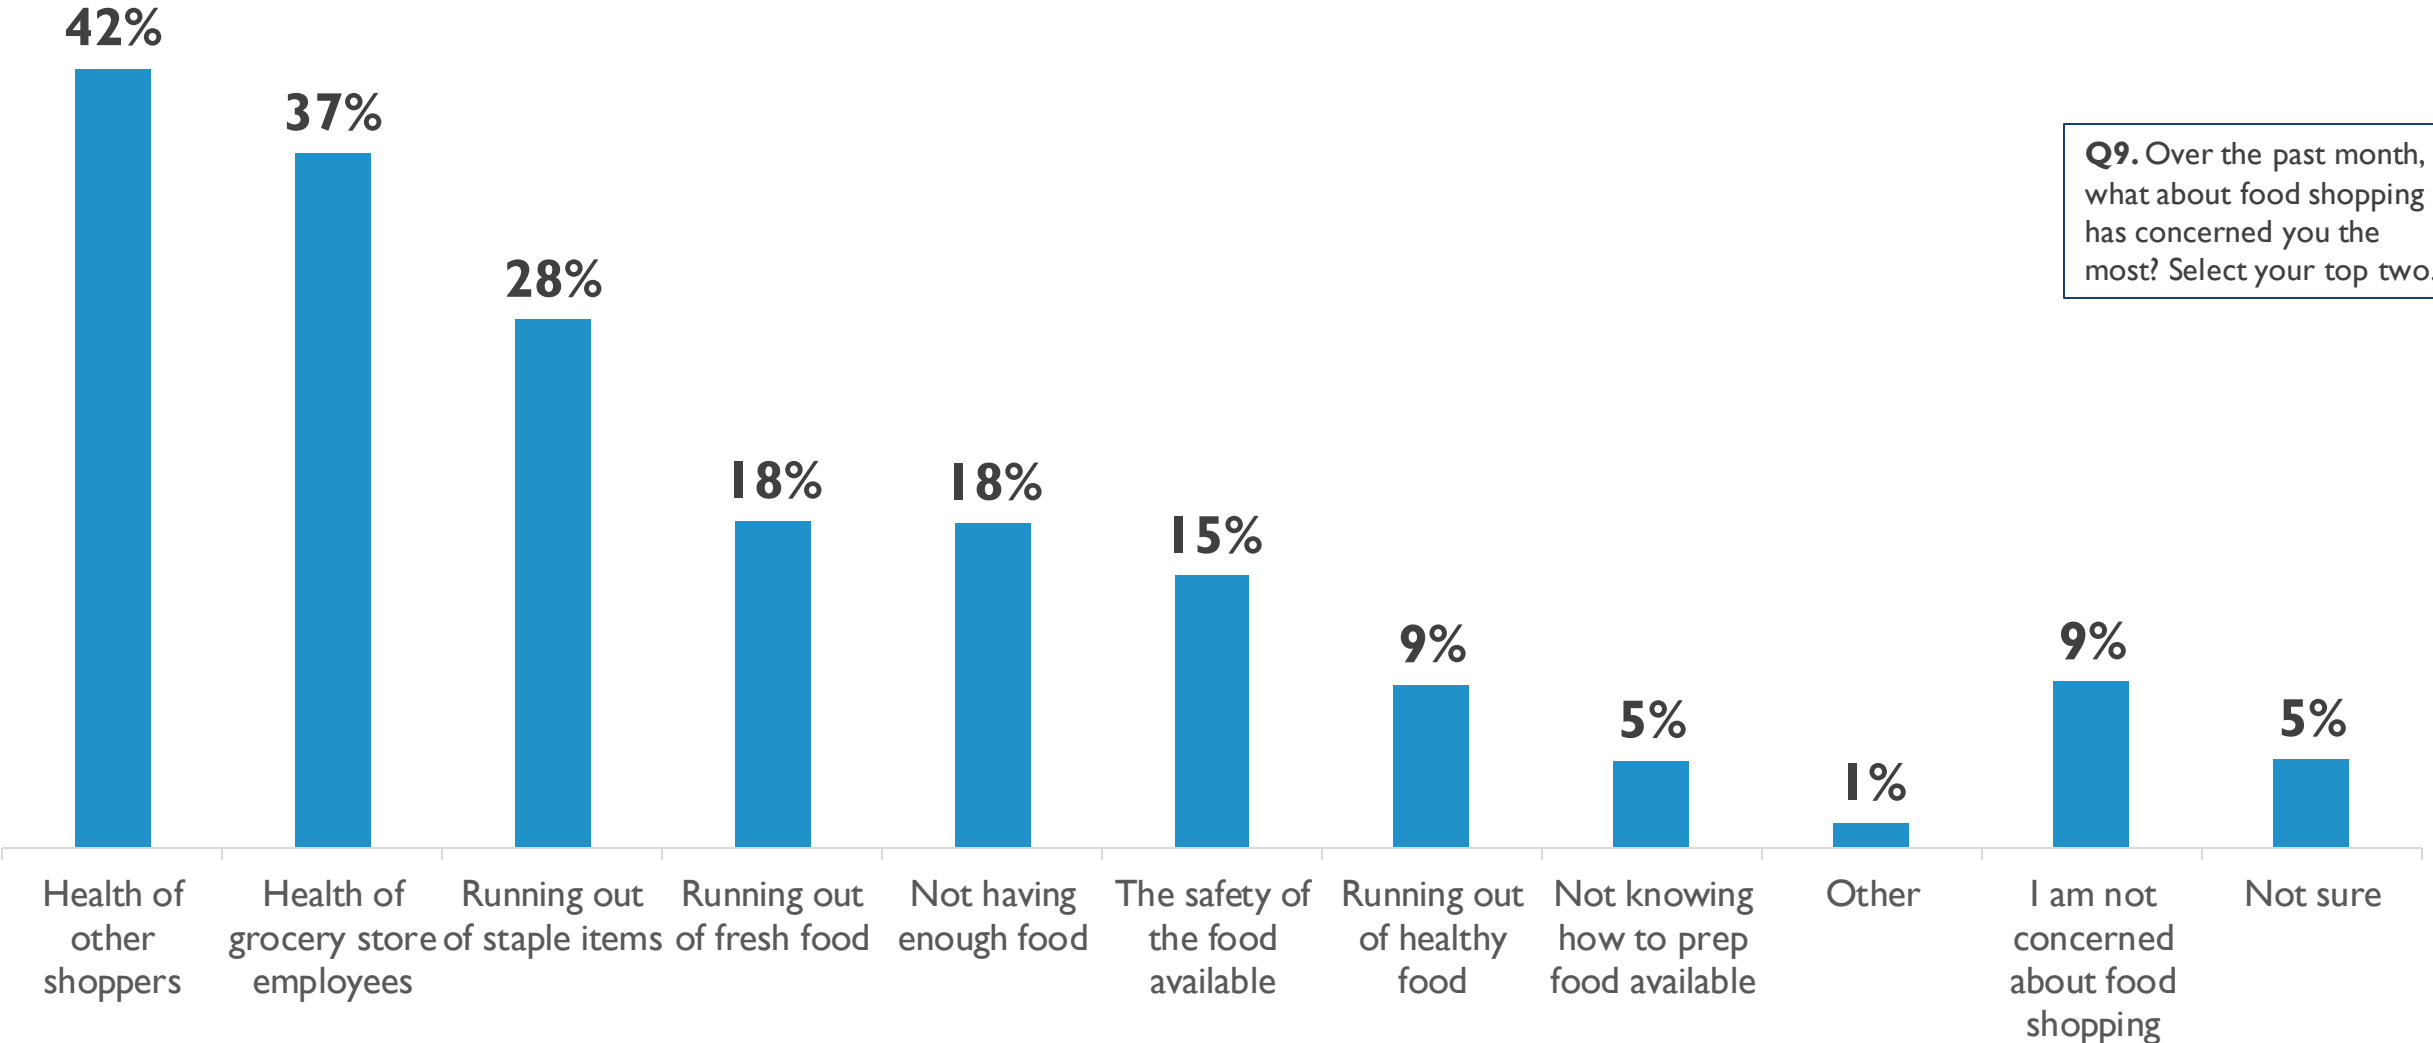

WASHING HANDS, REDUCED STORE VISITS AND MINIMIZING CONTACT WITH SURFACES ARE TOP SHOPPING SAFETY PRACTICES

CLEANING COMMONLY TOUCHED SURFACES, OFFERING SANITIZER AND WEARING GLOVES/MASKS ARE MOST IMPORTANT ACTIONS STORE EMPLOYEES CAN TAKE

TOP FOOD SHOPPING CONCERNS INCLUDE THE HEALTH OF OTHER SHOPPERS AND EMPLOYEES AND RUNNING OUT OF STAPLE ITEMS

FOUR IN 10 ARE PURCHASING MORE PACKAGED FOODS; SAME NUMBER HAVEN'T CHANGED AMOUNT OF PACKAGED FOOD PURCHASES

Q6. Over the past month, has the amount of packaged foods you are buying changed?

- Yes, I have purchased more packaged foods than I usually do
- Yes, I have purchased less packaged foods than I usually do
- No, the amount of packaged foods I purchase has not changed
- I do not shop for groceries
- Not sure

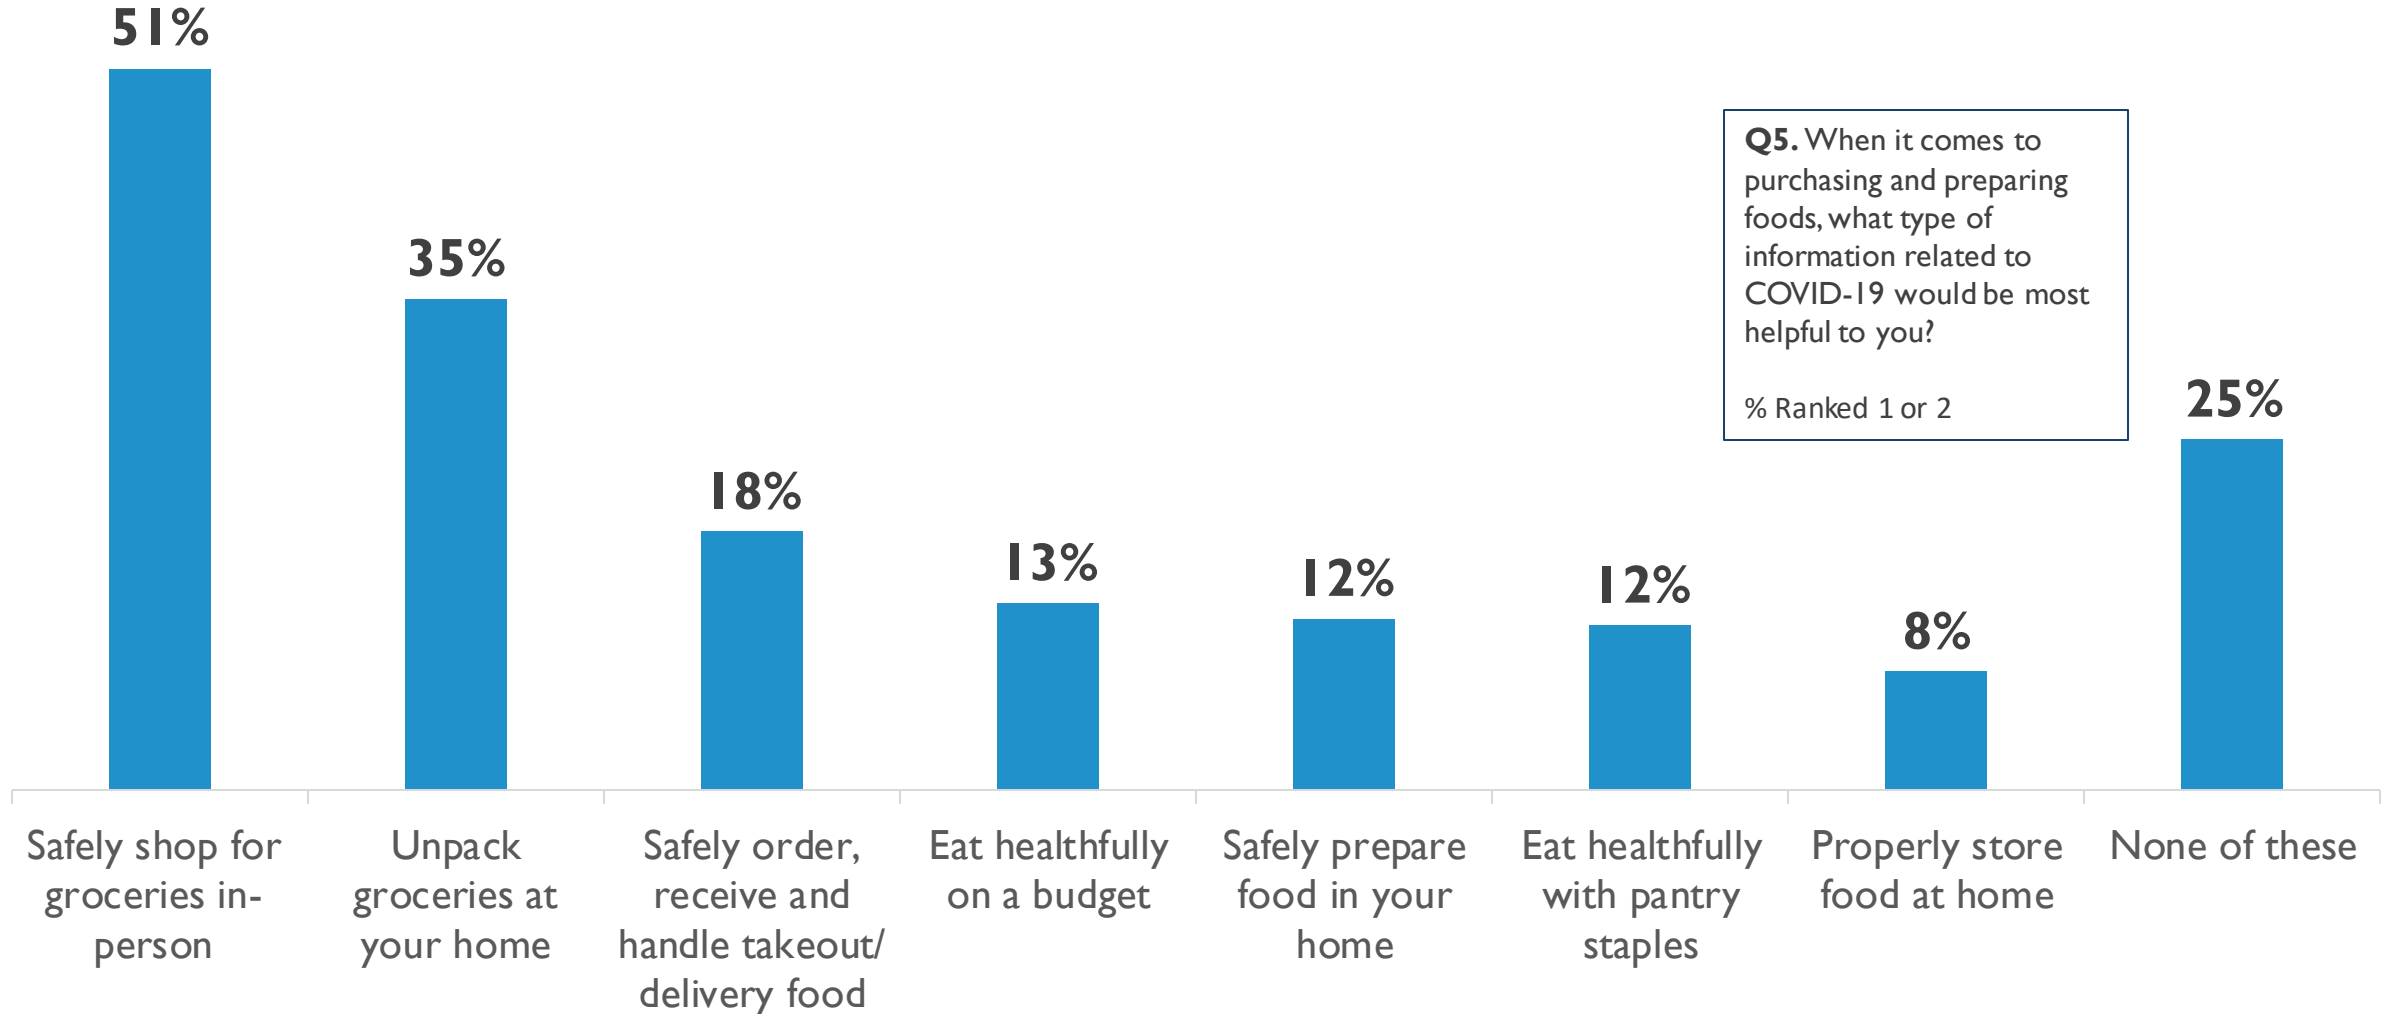

MOST CONSUMERS HAVEN'T CHANGED THEIR OPINION ON THE HEALTHFULNESS OF PACKAGED FOODS

- Yes, I have a more favorable opinion of the healthfulness of packaged foods
- Yes, I have a less favorable opinion of the healthfulness of packaged foods
- No, my opinion of the healthfulness of packaged foods hasn't changed
- Not sure

Q7. Over the past month, has your opinion about the healthfulness of packaged foods changed?

OVER HALF WOULD LIKE INFORMATION ABOUT HOW TO SAFELY SHOP FOR GROCERIES IN PERSON

EIGHT IN 10 AT LEAST SOMEWHAT CONFIDENT THAT THE FOOD THEY ARE BUYING IS SAFE

- Yes, I am very confident that the food I am buying is safe to consume
- Yes, I am somewhat confident that the food I am buying is safe to consume
- No, I am not that confident that the food I am buying is safe to consume
- No, I am not at all confident that the food I am buying is safe to consume
- Not sure

Q8. Do you believe the food you are buying is safe to consume?

MOST ARE AT LEAST SOMEWHAT CONFIDENT THAT FOOD PRODUCERS CAN MEET CONSUMER NEEDS

Q10. In thinking about the month ahead, how confident are you in the ability of food manufacturers to supply enough food to meet the needs of consumers?

APPENDICES

FOOD SHOPPING HABITS CHANGED

Q1. How have your food shopping habits changed over the past month as a result of COVID-19? Select all that apply.

	Shop in person less	Purchase pantry items more	Purchase more groceries when shop	Shop in person less busy stores	Purchase more frozen food	Purchasing more household items	Purchasing more packaged foods	Started grocery delivery
